May 3, 2018 | VOL. 25

Message from Chair Congratulations to our students and graduates! The university graduated more than 2000 students this past Saturday. We are proud of the achievements of our MIS and SCM graduates. They have now started a new and exciting journey as working professionals. The department celebrated [scholarships and awards](#) on April 17th. This event was sponsored by Speedway; I am grateful for your support and passion. It was a wonderful and emotional event where family, guests, and faculty cheered for our students. Many other events and activities took place in the past month or so. I hope that by reading this newsletter, you will see the joy and feel proud of our students like we do.

Dr. Shu Schiller

Director: Mr. Don Hopkins As in the past, we continue to ask your help in recommending our programs to your friends, family, and colleagues. Direct referrals are the largest source of new students in our programs. As previously mentioned, the [U.S. News and World Report](#) ranked our online [Master of](#)

[Information Systems](#) and [Master of Science in Logistics and Supply Chain Management](#) programs 19th among the 165 schools responding to the magazine's surveys.

We are continuing our recruitment of the Fall 2018 cohorts for both of these program, [Master of Information Systems](#) and [Master of Science in Logistics and Supply Chain Management](#) programs. We had our final **Taste Your Master's** program for this recruitment cycle on Saturday, April 28th, 2018. To bridge the gap over the summer, we are trying a new approach which involves Virtual Tour webinars. This is a great opportunity for prospective students to learn more details about our programs without ever leaving their homes or place of work. We have included the dates and times directly below. Have questions? Please email donald.hopkins@wright.edu.

Master Program Online Info Session <http://bit.ly/ISSCM-Master>

The poster features a background image of three students (two men and one woman) looking at a laptop screen. The text is overlaid on this image. At the top, in a yellow box, is the program name. Below that, in white text on a dark background, are the program details. The title 'TASTE YOUR MASTER'S' is in large, bold, yellow letters. Below that, in a teal box, is the session information. At the bottom, in a dark box, is a table of dates and times. The Wright State University logo and department name are at the bottom left, and the website and phone number are at the bottom right.

nicholas_custer@ahm.honda.com

We recently have 2 open student positions in our Supply Chain department in Troy, OH. Students generally work 20-25 hours per week and we work around their course schedule. We would like to see Freshman and Sophomores apply. Resumes can be sent to me, personally. <https://www.honda.com/careers/find-a-job>, Search keyword: AHM0003SZ

Description

The purpose of the Part Time Student Program is to provide employment experience in a productive work place and financially assist full-time college students in their pursuits of academic excellence. This position is a part of our Part Time Student Program within the Parts Division, which supplies service parts to Honda, Acura, Motorcycle, and Power Equipment dealers and export distributors.

Responsibilities:

- Support delivery specialists with various activities involving suppliers and system updates
- Support supplier performance related initiatives such as On-Time delivery, delivery trouble reports and new model preparedness
- Support service level related initiatives such as customer backorder reduction

Qualifications

- Full-time student status at an accredited 4-year college/university
- 6 units or two courses per quarter or semester
- Minimum 2.5 GPA or better (Transcripts Required)
- Major in Business Administration, Finance, Management, Marketing, Supply Chain Management, Computer Science, or Logistics preferred
- Be available to work an average of 20-25 hours per week
- Previous office experience
- Excellent verbal and written communication skills
- Knowledge of Microsoft Office (Word, Excel, PowerPoint)
- Exhibited leadership, problem solving, and collaboration skills
- Must be at least 18 years of age and authorized to work in the United States.

Reynolds & Reynolds

TO APPLY: Submit your resume to apply@reyrey.com or visit www.reyrey.com/careers

IT Solutions Specialist

As an Entry Level IT Solutions Specialist, you will be a part of project teams assigned to research, build, and deploy new and improved IT solutions to meet the needs of the business. Responsibilities will include collecting and analyzing needs, followed by researching and recommending appropriate solutions. You will then perform the hands-on work required to

build, configure, test, and deploy the agreed technical solutions. This position will also require providing appropriate documentation and training to equip our Operations teams with the ability to maintain, and support those solutions. You will work closely with other IT departments and the business and will be responsible for keeping your leader, project teammates, and other stakeholders updated throughout each project.

Entry Level IT Systems Analyst

As an Entry-Level IT Systems Analyst, you will gain first-hand experience with our IT Engineering team. You will learn how to research and develop IT solutions for both our internal teams and customer product use. Once trained, responsibilities may include building servers and networks, testing solutions, and working with other IT teams to solve various needs. This position will require creating standard documentation to be used by our Operations teams. If you enjoy working on a variety of projects and problem solving in the IT realm, this is the position for you!

Sarnova

Associate Buyer

US-OH-Dublin, ID 2018-2214

Apply [link](#)

Sarnova is the leading national specialty distributor of health care products in the emergency medical services (EMS) and respiratory markets. The Associate Buyer is responsible for coordinating and executing procurement activities to enhance the Company's high standard of service level. These activities include but are not limited to: review of forecasts, proactive demand management, daily ordering and follow up with the suppliers along with issue resolution for an assigned list of commodity suppliers. In addition, the Associate Buyer is responsible for providing administrative support to the purchasing team. They will continually expand their knowledge of product, industry and systems.
